SITUATION SUMMARY

Tropical Storm Marie, Impact to Southern California (Update)

- On 8/27/14 at 1400 hours, the National Hurricane Center (NHC) downgraded Hurricane Marie to a Tropical Storm due to maximum sustained winds decreasing to near 65mph. As of 8/28/14 at 0200 hours, NHC is reporting maximum sustained winds have decreased further to 50mph. NHC is predicting that the storm will be downgraded further to a Post-Tropical Cyclone later today.
- The NHC is forecasting that swells generated by Tropical Storm Marie are expected to gradually subside in Southern California through Friday. There are no coastal Watches or Warnings in effect.
- A large swell generated by Hurricane Marie will bring the threat of large surf, rip currents, minor flooding, and beach erosion to low lying areas of coastal Orange and northern coastal San Diego counties through Thursday, 8/28/14.
- National Weather Service reports that high surf for south and southeast facing beaches of Southern California due to Tropical Storm Marie is the most significant southerly swell event in 25 years and will cause: damage to piers; local flooding of coastal property; beach erosion; very strong rip currents endangering swimmers and surfers; and threat of sneaker waves to beachgoers.
- **Orange County**
 - Per Cal OES Southern Duty Officer, Seal Beach Pier in Orange County is closed due to flooding, but no reports of damage to the pier. Orange County is not in need of assistance at this time.
- **Los Angeles County**
 - Per Cal OES Southern Duty Officer, Malibu Pier is closed due to damaged pilings and is expected to remain closed through Friday, 8/29/2014. A sand berm was constructed at Malibu Surfrider west of Malibu Pier.
 - In Avalon, Pebbly Beach has sustained some significant damage to the water front area and a boat yard and lumber yard has been damaged. There are power outages being reported in this specific area.
 - Local Fire Department dozer team has constructed 5 sand berms at Zuma Beach.
 - City of Long Beach has reported flooding along Ocean Boulevard due to the tide appearing to breach sand berms. Pump Plant Crews are in the area to respond to any emergency that may arise.
- The Southern Region Duty Officer will continue to monitor the situation and provide updates.

SITUATION SUMMARY

Magnitude 6.0 Earthquake, American Canyon, Napa County

SITUATION UPDATE:

On Sunday, August 24, 2014, at 0320 Hours PST, a magnitude 6.0 earthquake struck five miles northwest of American Canyon, CA. The earthquake nucleated at a depth of 10.8km. The shaking intensity in American Canyon and Napa from the “South Napa Earthquake” was a “VII” on the Modified Mercalli Scale, suggesting very strong shaking occurred in the Napa County area. Ground shaking was felt as far south as Salinas, east to Sacramento, and north to Ukiah. USGS estimates that aftershocks should be expected for the next week. The Cal OES Earthquake and Tsunami Duty Officer is in contact with the United States Geological Survey and California Geological Survey and will provide updates.

Aftershocks:

As of August 27, 2014 at 1530 Hours PST there have been 99 aftershocks, four of which are M3.0 or greater per USGS.

Aftershock Probability Report:

At this time (3 days after the event) the aftershock forecast, based on earthquake likelihood of Magnitude 5 and larger is approximately 11%. There is a 2% chance of an earthquake equal to or larger than the current mainshock. In addition, approximately 1-10 small aftershocks are expected in the same 7 day period and may be felt locally.

Area Weather Forecast

Quiet weather is expected across the San Francisco and Monterey Bay Region all work week.

- Currently have a slight chance of rain for the weekend.
- Highs will be in the 60's and 70's at the coast with 80's to mid-90's inland for most cities.
- Friday and Saturday temperatures in the lower 100's are possible for far southern and interior regions.

Access and Functional Needs

- The City of Napa has updated their website to include advisories and information regarding water supplies and usage. PG&E will continue courtesy checks for residents.
- A FAST team is now on site at the Crosswalk Community Church (an additional FAST team may be deployed if needed).
- The American Red Cross will continue damage assessments and FAST team coordination.

Tribal Affairs

- Per the Cal OES Tribal Liaison, no damages have been reported for: Cloverdale Rancheria in Cloverdale, Stewarts Point Rancheria in Santa Rosa, and Lytton Rancheria in Santa Rosa.
- Building inspections are being completed at Graton Rancheria in Rohnert Park. Information to follow.
- The Tribal Office is still trying to make contact with Dry Creek Rancheria in Geyerville and Middletown Rancheria

- SOC / Inland REOC remains activated in support of 2014 Drought

ACTIVE WEATHER WARNINGS, WATCHES and ADVISORIES:

- http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level ridge will remain over the West Coast today resulting in dry conditions and slightly above normal temperatures across the interior. Temperatures will trend downward on Friday as the ridge moves east and is replaced by an upper level trough. Dry conditions will persist through the middle of next week.

San Francisco Weather:

Above average temperatures and dry weather conditions will persist through the remainder of the week due to high pressure along the West Coast. Afternoon temperatures then trend slightly cooler through Labor Day as the ridge weakens and an upper level trough impacts Northern California.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Dry weather is forecast to continue for the next week. Warm temperatures to continue today, with a gradual cooling trend expected into the middle of next week.

Hanford Weather:

High pressure will bring clear skies and above normal afternoon temperatures to the Central California interior through Friday. Slightly cooler weather can be expected this weekend as an upper level trough of low pressure settles into the Great Basin. Labor Day and Tuesday will trend warmer again as high pressure rebuilds.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will continue the warming trend today. Gusty northwest winds are expected Thursday night and Friday night for the Santa Barbara area. As a low pressure trough develops over the weekend, temperatures will cool to near normal along with the return of the marine layer by early next week.

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

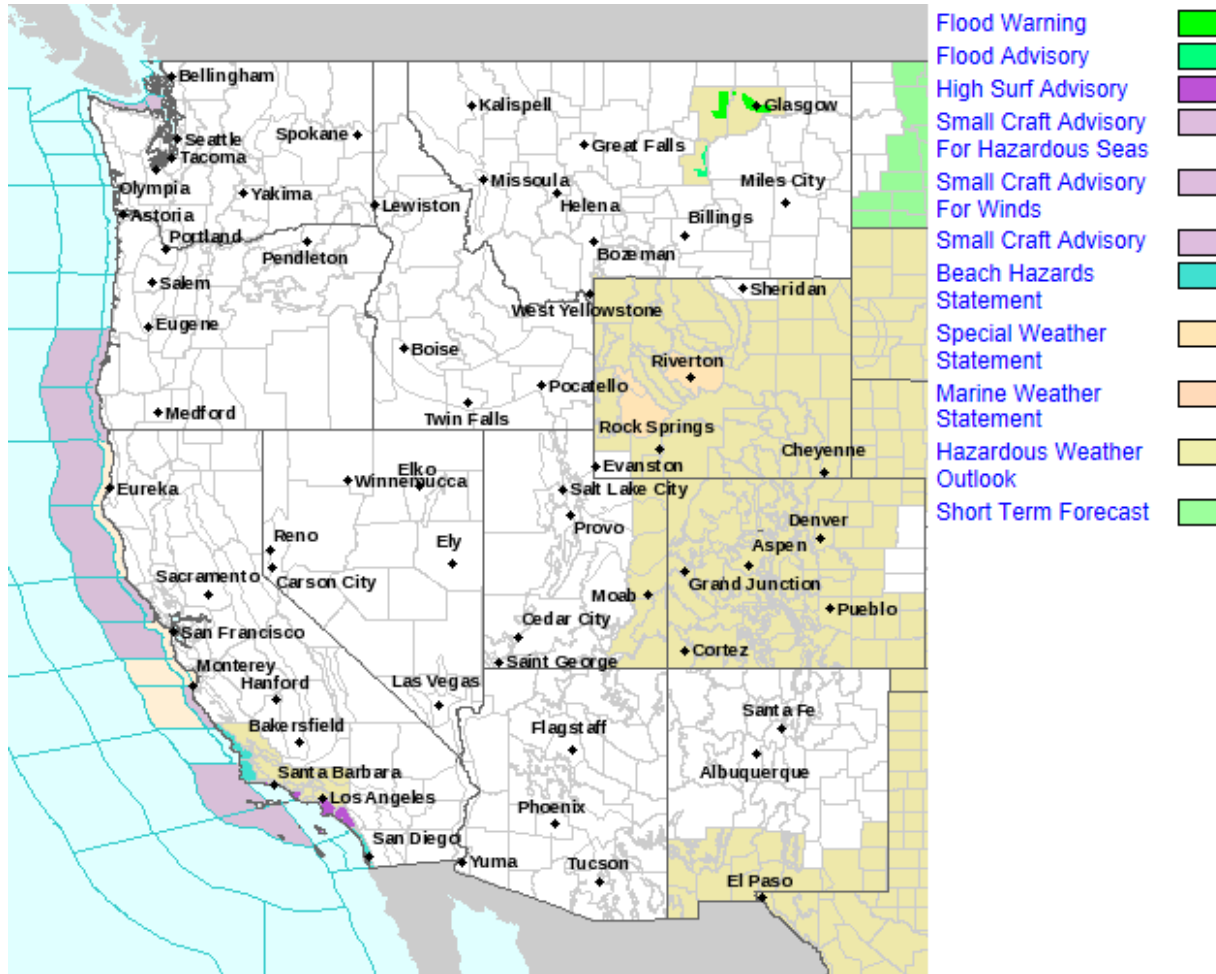

Large swells from former Hurricane Marie will continue to bring high surf along with dangerous rip currents to Orange County and northern San Diego County today. High pressure centered off the Southern California coast will bring warmest temperatures for coastal areas today with slow warming for inland areas into Saturday. Slow cooling near the coast Friday will spread slowly inland for the weekend as a low pressure system moves inland to the north increasing onshore flow for Southern California. Areas of night and morning coastal low clouds and patchy fog will return for the weekend. For next week dry southwest flow aloft will continue with near seasonal high temperatures.

Southeast California Weather:

Dry weather and slightly above normal temperatures are expected through the weekend into early next week.

CAL OES ACTIVATIONS

Cal EOC Incident – 2014 Drought

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of August 21st: Don Pedro 41%; Exchequer 17%; Folsom Lake 40%; Lake Oroville 32%; Millerton Lake 46%; New Melones 24%; Pine Flat 11%; San Luis 19%; Lake Shasta 31%; Trinity Lake 30%; Pyramid Lake 94%; and Castaic Lake 44%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

http://www.waterboards.ca.gov/waterrights/water_issues/programs/drought/emergency_regulations_waterconservation.shtml

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.

LDO secured the following: Merced SO sending 6, Stanislaus SO sending 6, Amador SO sending 5, El Dorado SO sending 12, San Joaquin SO sending /3 from Stockton PD. The Cal OES K-9 Coordinator is working the request for the dogs. On 8/26/14 at 0307 hours, Tuolumne County Sheriff's Office (TCSO) is requesting SAR resources to help locate a missing 63 year old female in the Columbia area off Saw Mill Flat Rd. The MP was last seen on video walking out of her home approximately 1100 hrs. on Monday, August 26, 2014. The family, which didn't see the video until approximately 1900 hrs., that day, immediately notified authorities, who initiated search efforts. The MP has medical issues and may be confused due to medications taken for arthritis and fibromyalgia. TCSO is requesting one trailing and one tracking K-9, along with helicopter support from CHP H-40 out of Fresno. The search area is a mixed rural/urban open space, containing heavy brush, and is at 1500'-2000' elevation. Tuolumne has already contacted both Calaveras County for the K-9 support and CHP for the helicopter. 8/26/14, 1640 hours, TCSO is requesting additional SAR resources for Wednesday, 27 Aug. to include thirty (30) Type II searchers and two (2) area K-9's. The Type II's are requested to respond at 0700 hrs. with the K-9's reporting at 0600 hrs. at TCSO's SAR office in Columbia. San Joaquin County SO and Calaveras County SO are providing the ground teams while the Cal OES Law Enforcement Branch coordinated the K-9 resources. **Mission Ongoing.**
- **2014-LAW-4540** LDO received request from Trinity to re-open this mission for a one day search on Saturday, 30 Aug. San Mateo, Marin and Contra Costa will assist Trinity SAR in searching specific area's. They will arrive on Friday, 29 Aug, camp overnight, then conduct the one day search, before departing on Saturday afternoon/evening. **Situation:** 8/3/14 Trinity County Sheriff's Department requested resources to assist in searching for a missing 59 year old hiker last seen at 1400 hours on 8/2/2014 near Billy's Peak outside the town of Coffee Creek, Trinity County.
